

PICKZY
INTERACTIVE
We Innovate Your Dreams

WHO WE ARE

PickZy is a one source destination for those who wish to get flawless IT solutions delivered on time. We are one among the globally leading mobile and web development companies that are raising industrial standards with world-altering services.

We've made all kinds of apps; worked on all existing platforms and are warmed up to gain momentum on upcoming technologies too. We love doing great stuff with technology. Mobile or web, we got the best skills to put any ideas into action.

Obsessed with perfection, PickZy does not require second chances; unless it is to upgrade the project to the next level. We think thrice, plan twice and code once with perfection.

"We are laser focused on delivering the best possible IT services to a global client base "

Backed with solution centric analytic skills, smart development expertise and credible industry exposure; we have built a globally acknowledged reputation in the mobile and web app industry within a short span of coming into existence.

A strong team of young and energetic employees pave the way for our successful ventures. They display heartfelt passion and commitment to their respective roles. As a team, we strive together to achieve progress and perfection in all aspects of work.

We don't go with the flow. We think like there is no box to derive perfect IT solutions that will solve our client requirements. Thus, we have earned the recognition as one among the world's best IT services provider.

WHY OUR SERVICES ARE BETTER THAN THE BEST ?

Providing cutting-edge IT services has remained our core passion since the first day of business. Our goal is to deliver solutions by challenging the usual way of doing things.

With an ability to bring to the table inventive and innovative capabilities meeting project requirements head-on comes to us naturally. We complete projects with precision that surprises our clients.

And, we don't just stop with completing projects, we go on to create happy clients; clients who come back all the time for extended services. That is how we have grown into a successful IT service provider over the years.

We have excellence as a standard trait.

Highly skilled developers with native programming expertise

Ability to create tech products that work seamlessly on diverse OS platforms

An intuition to spot trends in UI/UX

Experience in rendering real time data syncing using Cloud technology

Out of box thinking for deriving problem solving solutions

HIGHLIGHTS OF PICKZY'S OFF-SHORE SERVICES

01

KICK START PROJECTS INSTANTLY

Planning resources, hiring the right talent, setting up infrastructure - the hurdles are many to kick start a crucial project. Why trouble yourself with all these difficulties when our IT services provide the same facilities in an instant? We offer the expertise required to initiate any ambitious project in record time with professional IT services.

02

SLASH YOUR CAPEX TO A BARE MINIMUM

If not for irresistible cost cutting, IT outsourcing will not be as popular as it is today. With IT outsourcing a business can slash investment otherwise required for hardware, software, human resources, etc. to a fraction. PickZy will ensure that your operations continue to run smoothly with all essential infrastructure without incurring hefty costs.

03

AVAIL THE BENEFIT OF AN EQUAL LEVEL PLAYING FIELD

Compared to tech giants that have a large pool of resources at their disposal, smaller firms are at a loss for in-house IT support and infrastructure. IT outsourcing equips smaller firms with the same level of IT expertise that only larger firms possess. As your IT outsourcing partner, we take up on ourselves the duty to give you an equal playing field at par with top enterprises. We will act as an extended arm of your IT operations.

04

NEGATE RISK OF TECHNOLOGICAL OBSOLESCENCE

Modern technology can possibly change within a span of few weeks or a month. Unless you are equipped with a sizeable backup to meet changing technologies, losing competitive edge in times of change is inevitable. PickZy has an optimized and flexible IT infrastructure that can weather the ups and down common in the IT industry. We help our clients wade through difficult times with grace.

WHY EVERY BUSINESS MUST HAVE A MOBILE APP?

"The future of mobile is the future of online. It is how people access online content now."

- David Murphy, Founder and Editor of Mobile Marketing Daily

The mobile app industry is all set to revolutionize the way businesses were conducted, entertainment was consumed and routine lives were managed till date.

Mobile apps are going to make things easier, simpler and a lot more efficient than they were ever before. Highly customizable mobile applications will help businesses render their clients with tailor made solutions. Individuals can enhance their personal lives with innovative and creative mobile applications.

With efficient data mining of customer preferences, business prepare and implement tailor made marketing solutions that will increase sales volumes manifold at fractional costs. Moreover, the future of business is expected to be in the app medium where customers can consume goods and services from anywhere, at any point in time.
